

MODEL OVERVIEW

HT-SL72 Immerse yourself in a room full of sound with this 2.1 channel super slim bar plus Wireless subwoofer system. The HT-SL72 sound bar system features a unique twin super slim sound bar design that is designed for 60" Class TV home theater environments. This system can be set up both horizontally like a typical soundbar, or vertically on the side of the TV for a flexible design solution. You'll be amazed by the big sound that comes from this small, sleek sound bar home theater system.
